Sorry, Marion. I got a little panicky from Meredith's note that maybe we had more work to do for Afido.

Thanks for replying to Mike G. earlier with regards to aldicarb!

Have a great weekend.

Debra

Thanks, Debra, Dan! My apologies for not forwarding the link, but when I perused it earlier in the week, I didn't see anything of significance for IVB2. Nonetheless, thanks for the follow up, Debra!

OK. Thanks, Dan. I just checked the link and as you alluded, I didn't see any comments to address. Let us know if that changes.

I don't recall if there is anything to fix up with that one. But yes – I'll send you the link.

Hi Dan,

I haven't seen the issues with/comments on the afidopyropen OIG response.

Could you provide me the link to this document that needs to be edited?

Thanks,
Debra

Subject: RE: IG audit response - consolidated

Hi Dan – I revised the section regarding the questions on unconditional registrations/storage stability & corrosion data. I tried to clean it up per Mike's comments. I did not edit the response on afidopyropen since that's not my chem. Am ccing Debra & Marion.

Michele mentioned that one of the AD PRIA code interpretations notes that this data is post-registration but not conditional. I didn't add that reference because it's not a code for conventionals but what do you think?

Meredith

All – this document should now be on the one drive and a few minutes ago sent you all a link. So in order to more efficiently make our updates – please work with that version. Thanks

Subject: RE: IG audit response - consolidated

I have a number of comments on each.

We need to provide the OIG a clear paper trail - where data gaps are identified in the RA, where is it specifically stated as being addressed in some manner? We need to make it easy for the OIG to follow. Don't assume they understand how we reach our decisions – point them to supporting statements where we can.

Let me know if you have any questions.

Subject: IG audit response - consolidated

All – here's what the consolidated proposed response to the IG on their review of our registration work looks like.

As a next step - please review it and share comments and questions.

Notes: to EFED: please pay special attention to question 1. The others aren't so much in your sphere. To the BCs – please jump in if you see a problem with any editing that's been done. Also – Kerry Leifer please review Q3 – about product formulation data and add anything that would improve the response. OGC – please take a whack at the whole thing.

Thanks
